TESTQ Differentiators:

UK-EU Compliance (IR35, RTW, GDPR)

Proprietary TAMIS ATS

Scalable Delivery

Proven Agility

www.testqtech.com

Dynamic Growth & Tech-Driven Evolution

- Specialists in demand for key technologies across regions
- Project-based hiring favoured over permanent headcount

02

- Skill shortages driving offshore and hybrid sourcing
- Increased need for agile, scalable technical resources

Compliance-**High Demand** Led Hiring is a for Specialist **Top Priority IT Skills**

IR35 and RTW rules drive vendor scrutiny

- GDPR compliance critical for candidate data handling
- Clients prefer fully compliant delivery partners
- SOWs adopted to reduce engagement risk

• Top talent not active on job boards

• Clients require curated, pre-vetted candidate pipelines

• Emphasis on employer branding and engagement journeys

• Al-driven sourcing platforms improving talent visibility

Passive Talent Sourcing Gaining Market Traction

03

Shift Toward Flexible **Engagement** Models

- Outcome-based SOWs gaining traction across sectors
- Clients value rapid bench resource availability
- Talent pods used for platform-specific team builds
- Flexibility crucial due to project delivery volatility

04

www.testgtech.com

Evolving Workforce & Strategic Imperatives

Cloud, AI/ML, Cybersecurity in demand

- Shortage of senior and specialist talent
- Multi-disciplinary roles increasingly favoured
- Project-specific skills over generalist profiles

- Onsite + WFH blend becoming standard
- Time zone-aligned nearshore teams in demand
- UK clients expect delivery continuity
 Remote work drives cross-border hiring flexibility

Key Trends:

- Agility
- Remote Work &
- TalentImperatives

Demand for High-Impact, Niche Skills

Compliance-Driven Workforce Planning

Rise of Hybrid & Distributed Teams

Shift Toward Value-Based Engagement Models

- RTW and GDPR must be assured
- Preference for vendors with audit readiness
- Role-based engagement models gaining traction

SOW and milestone-based hiring rising

Fixed-output contracts reduce delivery risks

- Outcome-linked KPIs over time-based effort
- Agile pods for platform-specific delivery

www.testqtech.com

Our Candidate Hiring Approach

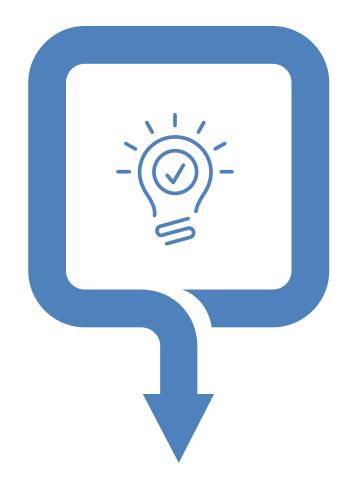

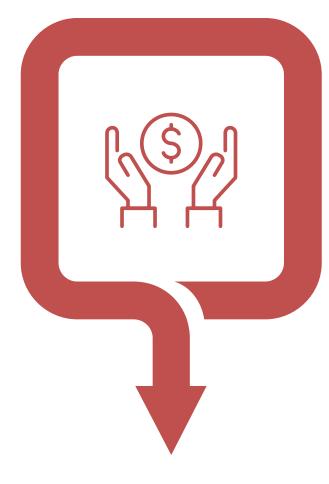

Candidate Vetting and Compliance

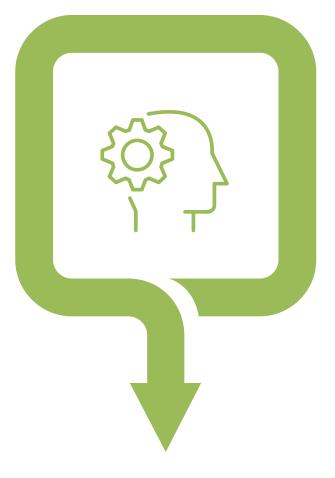

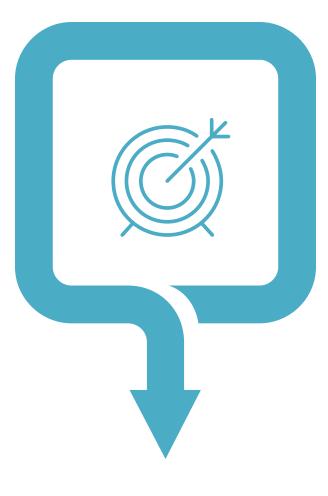

Adherence to UK and EU Right to Work (RTW) and GDPR

BGV checks:
employment history,
education, criminal,
address and
reference verification

Role and technology skills -specific mapping and benchmarking using inhouse tools

Alignment with IR35 and HMRC compliance for contract resourcing

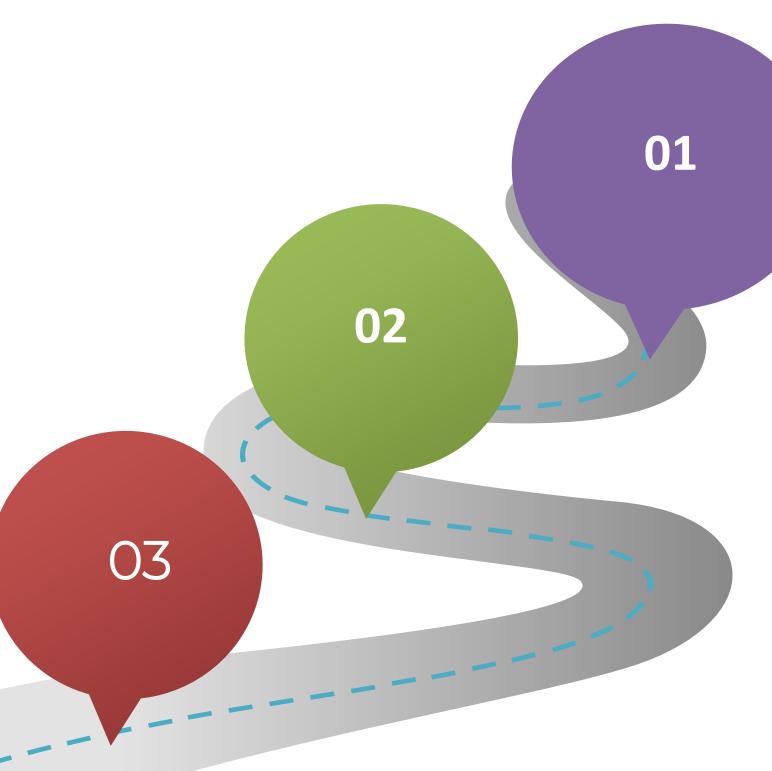

Value Proposition

TESTQ as a Talent Partner for UK-EU Delivery

- 01
- Scalable Resourcing with Full Regulatory Compliance: TESTQ empowers clients to rapidly scale delivery teams across the UK and Europe through fully IR35, Right to Work (RTW), and GDPR-compliant staffing—ensuring legal assurance and audit readiness.
- 02
- Rapid Fulfilment of Onsite and Hybrid Talent Needs: Prevetted, job-ready professionals are deployed across critical domains—cloud, data, testing, and ERP—ensuring seamless support for ongoing UK and EU project commitments.
- 03
- Local Delivery Ownership with Cultural Alignment: With UKbased delivery leads and embedded engagement teams, TESTQ ensures strong client alignment, transparent communication, and effective collaboration between offshore resources and UK stakeholders.
